## COUNTY FAIR OPENS TODAY

a New York on Saturday for a brief Labor Unions Unite with the Agricultural Society-Big Crowd at Grounds Sunday Necessitated Extra Electric Cars.

Although the New London county's fifty-fifth annual fair does not open until this morning, there was a big crowd of people on the grounds Sunday, and one man was heard to remark that the association had seen days when there were not as many en the grounds during a day of the fair. This indicates an interest on the part of the people, and so eager were they to visit the grounds Sunday that it was necessary to run double service on the West Side line, one of the double electrics being used there during the afternoon besides the regular car.

There was much activity all about the grounds, being an indication of the size of the crowd which can be expected today at what Secretary Yerrington considers will be the biggest and best fair the association ever conducted.
